

## ABOUT US

The Azuretrend group brings together the Ecotank, Monawa and EmergenSea brands to support captains, agencies, ports, marinas and other players in the nautical sector in the sustainable management of water, effluents and pollution. With its recognised expertise, the group deploys technical solutions dedicated to ship maintenance.

### New service from the group

Our teams work on board and on shore to provide a dedicated plumbing and hydraulic network service. Whether for corrective maintenance or new installations, our specialist technicians ensure the integrity of your water systems and sanitary equipment.

## THE BENEFITS OF THIS SERVICE

✓ Safety & Sealing guaranteed

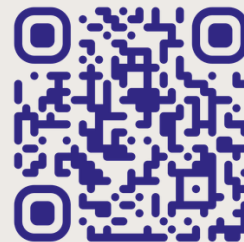

✓ Premium comfort for crew and guests

✓ Full component and service traceability
